

TERMINAL LB

WWW.HSP.SE

FOR HEAVY LIFTING

Terminal LB (LowBuilt) grapple is similar to the normal terminal grapple and has the same excellent handling. It has been designed for efficient loading of large volumes of goods. The Terminal LB is basically a large HeavyDuty. i.e. a large grapple with overlapping claws. We offer two different types of grapple, Terminal and Terminal LB, to do the same job. Choose the one that suits you best.

- Stable and robust design
- Expander pins
- Reliable and user friendly
- Excellent timber handling
- Extremely high quality
- Powder coated
- Made from high grade steel
